

# PROCEDURES FOR ENTRY TO ST MAARTEN, SABA & ST KITTS

**St Maarten;** effective November 1, 2022, St Maarten is no longer requiring travelers to complete the Electronic Health Authorization system (EHAS) Application. **There are no Covid-19 entry requirements.**

**Saba** doesn't require any vaccination status or test to visit the island. .

**St Kitts:** Effective on August 15, 2022, The Federation of St. Kitts and Nevis has ended all COVID-19-related entry testing and vaccination requirements. The recent announcement indicates that the Federation is now open to both vaccinated and unvaccinated travelers. Additionally, travelers will no longer be required to show proof of a negative COVID-19 test to enter the Federation. However, all incoming passengers must complete and submit the Immigration and Customs ED form which includes a Custom and Border Form at [knatravelform.kn](http://knatravelform.kn).

**However, despite St Maarten & St Kitts new protocols, Explorer Ventures strongly encourages all guests to get tested before departing their home country. We have made the decision to continue to require all guests (regardless of vaccination status) coming aboard the Caribbean Explorer II to present a negative COVID-19 test result (PCR, antigen, or supervised by a tele-health professional) with a sample taken within 1 day of boarding the vessel. If you are unable to get a test done before your arrival onboard, you'll be required to bring an at-home COVID-19 testing kit which will be administered right before boarding the vessel.**

## INSURANCE & EHAS HEALTH APPLICATION FORM
